

Stay Connected and Get Control

STAY INTERVIEWS:

provide a full consensus of a specific targeted population

offer focused research on top performers that you want to keep

help companies understand and reinforce motivations for staying

give actionable information on a regular basis

Interview high performers
NOW and OFTEN
about what possible workplace issues should be addressed.
SO THEY STAY.

EXIT INTERVIEWS:

provide feedback from employees who decide to leave

tell why top performers leave but they're already gone

aren't preventive for the employee who's left the company

can uncover valuable intel, but be time consuming

Why wait until your employees leave to realize there are issues?

Proudly brought to you by:

 Work Institute

... before employees EXIT
